

"Let me just say that if you're even thinking about doing this ride... then you have to do it. Last year's ride was absolutely beautiful. The weather was perfect, there was still plenty of colorful foliage left and the route was great. I did the 62 mile route and there were no killer hills and traffic wasn't a problem at all. I joined a very friendly group of riders from Jeff City along the route and couldn't have had a better time. Hope to see you there!"— Chuong Doan
