

Proposed Statewide Bicycle Route Map for Missouri

Version 2

The proposed cross-state bicycle routes have been offered to the MoDOT Bicycle/Pedestrian Advisory Committee by the Routes Subcommittee. The routes have been selected on the basis of average daily traffic volume data and topography. The routes have not been ground-tested. They are not approved by MoDOT. They are offered purely for consideration, comment, and suggestion by cyclists across the state.

This is the 2nd version of the proposed cross-state routes, March 2004.

The proposed routes would be intended for use by experienced touring cyclists.

The routes are for rural areas only. It is intended that each metropolitan area will create its own bicycle route map that will interconnect with the proposed cross-state bicycle routes.

Feedback on these proposed routes is greatly appreciated!

The Missouri Bicycle Federation is working actively with MoDOT to consider cyclist feedback in the development of these proposed routes.

Please address feedback to Brent Hugh, Chair, Missouri Bicycle Federation at bhugh@mwsc.edu, send written comments to Missouri Bicycle Federation, Inc., Post Office Box 104871, Jefferson City, MO 65110-4871, or visit www.MoBikeFed.org

Map Key

Orange=Cross-state routes

Blue=Connector routes

Green=Off-road multi-user paths

Please note that this map is presented for feedback and comment only and there is absolutely no guarantee as to the reliability, accuracy, or completeness of the information presented, or the fitness of the map for any purpose whatsoever. At all times bicyclists assume the responsibility for their own safety when riding.

Map Layout

The map is laid out as a grid roughly corresponding to MoDOT's Districts 1-10:

District 1 Page 3 St. Joseph Cameron	District 2 Page 4 Chillicothe Kirksville	District 3 Page 5 Hannibal Columbia, Jeff. City	
District 4 Page 6 Kansas City Warrensburg	District 5 Page 7 Sedalia, Jeff. City Columbia, Boonville	District 6 Page 8 St. Louis	
District 7 Page 9 Nevada, Joplin	District 8 Page 10 Springfield	District 9 Page 11 West Plains	District 10 Page 12 Cape Girardeau Farmington Poplar Bluff

Note that there is some overlap between the different pages, to ensure that each area receives good coverage and to reduce awkward page turns. Also note that some pages are oriented vertically and other horizontally—again to allow the best coverage of each district.

The map may be printed out on a laser or inkjet printer (suggested minimum resolution 600x600 DPI) to create a map booklet covering the entire state of Missouri.
